

Concrete Coatings

ENVIRO CONCRETE STAINS

Earth Friendly Concrete Stains are deep penetrating permanent water-based stains. **Water Based** Stains are UV stable and will not fade in direct sunlight. They are ideal for interior or exterior applications and produce a vibrant, long-lasting stain that enhances any concrete surface.

PRODUCT HIGHLIGHTS

- **UV stable:** Once dry and sealed, the **TruStainStain** remains stable and resistant to weather and sunlight for years
- **A wide range of colors:** The **TruStainStains** at various dilutions and combinations can offer many colors and shades for any desired effect in beautifying plain concrete surfaces. This includes a true black and white.
- **Ease of application:** The **TruStainStains** do not require neutralizing or labor-intensive scrubbing. Once dry they can be sealed. Half of the labor is eliminated.
- **Economical:** The stains cover up to 250-300 Sq. Ft./gal or 1000 sq ft per accent color. One coat is usually sufficient.
- **Long shelf life:** The **TruStainStains** can be stored in the original bottle for up to one year without losing intensity.

USES

The **TruStainStains** are applied to any clean, cured concrete surface, or concrete overlay surface. Once dried and sealed, the various colors that are applied become a permanent part of the concrete with lasting beauty. Great indoors and outdoors!

QUICK LOOK:

Type: Non-acid, polymer-bonded concrete stains

Toxicity: Low. Harmful if swallowed

VOC's: Low. Less than 100gm/L

Flammability: Non-flammable

Composition: Various UV-stable coloring agents in an aqueous penetrating polymer binder.

Color: Various

Odor: Slight pungent

Coverage: 250-300 Sq. Ft. per gallon 1000sq ft as an accent color

**Coverage rates may vary depending on porosity, texture, application method, and prior sealer application. Excess buildup should be avoided.*

ENVIRO CONCRETE STAINS

HOW TO USE:

1. Clean concrete to remove dirt or stains, and oily deposits. Be sure that the surface is free of any sealants or coatings.
2. Apply with a plastic pump-up sprayer. Do not let it puddle. Put down in a circular motion.
3. Allow to dry thoroughly. Drying time will vary according to surface conditions and humidity. A second coat of stain may be applied for a darker coat or the addition of a second color.
4. Allow to completely dry again (min. 24 hours), and apply Sealer to enrich and protect your finished project.
5. The **TruShine** Floor Polish is strongly recommended for interior applications to protect and keep your floor looking new.

CLEAN UP:

Appropriately discard the brush or application utensil, or clean thoroughly with soap and water before the product is dry. Dispose of according to local, state, and federal regulations.

PRECAUTIONARY STATEMENT:

Wash hands thoroughly after handling. Do not eat, drink, or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection. Take off contaminated clothing and wash it before reuse.

FIRST AID:

IF IN EYES: Immediately flood with water for 15 minutes, lifting both eyelids. If irritation persists, Get Medical Attention. IF SWALLOWED: Do not induce vomiting. Drink two glasses of water and Get Medical Help Immediately.

IF ON SKIN: Wash with soap and water. Remove contaminated clothing and launder it before reuse. If irritation develops, Get Medical Help.

IN CASE OF FIRE:

This product is not flammable.
